AIM International - Sharing Jesus in Africa

Zass - The Tjiwana Family (Zeka, Anita, Sally and Sarah) send us greetings for our ministry here in Weymouth for this New Year. They are encouraged by how the Lord is using them in their work among The San People. They are grateful to God that they have been, and still are doing well, by God's grace. The twins, Sally and Sarah, continue to grow and they are picking up words from the local Click language.

At the beginning of January, Zeka's parents and two of his brothers visited them in Tsumkbe (see above) (it was the first time the girls had met their grand-father and uncles!). It was good that the family were able to see where they live and something of the work God has for them to do. They have also been blessed by a visit from AIM Leadership, a time of Prayer, fellowship and encouragement.

They are thrilled to announce that Anita is expecting twins, due in August! Please Pray that all will go well with the pregnancy. Wow, four little ones!

Youtube video: *TIMO teams hopes and fears*

The building of the houses for the TIMO Team is getting closer to completion; the cement work is completed, doors, windows and furnishing still to be finalised. Praise the Lord there is a possibility that two short term teams from South Africa (Cape-town and Johannesburg) will be going to help with the remaining work. They are

hopeful that, God willing, the houses will be finished by May. Please Pray for their Team members as they continue to raise their support. At the end of January none of them had reached 60% of their monthly support!

Finally Pray that everything will be completed and the Team will arrive and be able start work in May.

Rosemary Croft.

More on the San People

The San people (or Saan), also known as Bushmen or Basarwa - all considered pejorative to some degree - are members of various indigenous hunter-gatherer people of Southern Africa, whose territories span Botswana, Namibia, Angola, Zambia, Zimbabwe and South Africa. There is a significant linguistic difference between the northern people living between the Okavango River in Botswana and Etosha National Park in northwestern Namibia, extending up into southern Angola; the central people of most of Namibia and Botswana, extending into Zambia and Zimbabwe; and the southern people in the central Kalahari towards the Molopo River, who are the last remnant of the previously extensive indigenous San of South Africa.
