

BMS World Mission *Transforming lives*

Angus Douglas - taken from KISC's 30th Anniversary video, showing KISC's journey from 1987 to 2017. See it on YouTube: youtu.be/ciuZNuUsLiU

The Douglas Family send greetings after a very busy time there in Nepal. First, they would like to say thank you for Praying for Helen's Mum, Ruth. She is partway through her chemo and radiotherapy treatment - she is doing well, but very tired. Please continue to Pray for Helen's Dad and brothers as they support dear Ruth through this time.

Angus is close to starting the building of the new KISC site development. [Architects' plans](#) are completed and awaiting approval of the local municipality. A site visit of a number of school families was really exciting; the children ran off to explore the big open space and the parents were able to visualise the end result. Things are moving fast but still much to be done. Please Pray for Angus as he instructs builders, overseas the project and raises funds!

Helen was very busy in February planning for and hosting a visiting Church Team. A BMS Insight Team from Westbury-on-Trym Baptist Church went for 2 weeks (another of their supporting Churches). This was very special for them all. She has also been planning her research project for Medical Education Masters into ethics and communications among Nepali doctors. There are some possible different visa options for her that may allow increased flexibility in working, research and training. Please Pray for guidance and discernment as to the right way forward. She has also been involved in training up the children's workers in their Cornerstone Church.

As a Family they have been going through the process of adoption. God has laid this on their hearts over the last few years. It is not straight forward especially with them living in Nepal. They are going through the usual UK Social Services vetting, including having a Social Worker out to stay for a week. They will be adopting a child from China (not able to take a UK Child to Nepal and Nepal will not allow them to adopt there). They have an adoption panel interview on the 22nd March via Skype! Please Pray that this goes well and that they can move on to the next stage.

Some very good NEWS - they will be coming to WBC on Sunday 9th July during their brief time back in the UK. They very much appreciate our Prayer support.

AIM International – *Sharing Jesus in Africa*

The Tjiwana family send their thanks for all the Prayer support

over the past 3 months. They had asked that they might recover from all their challenging experiences and God has been gracious and granted them the rest and renewal that they needed. AIM Leadership Team have been very supportive and encouraging, and together they have decided that it was time for them to go back to Tsumkwe and be a blessing to The San People. They hoped to return on the 25th February.

PTL Anita's health has greatly improved; she has been able to do lots of exercise at a local gymnasium and this has helped the blood pressure problem. It will be a challenging transition for them all, especially the girls, as they have been going to a preschool in Rundu and the boys are now walking (very fast Zeka says) Four little hands full !!

Their Unit Leaders were visiting at the beginning of the month to discuss their Ministry Focus and goals as they are no longer doing TIMO.

The Chief of the San

They had some wonderful news before their return – the Chief of The San in Tsumke with one of his advisors was baptised recently together with other folk. So a great start to their return. Please continue to support this little Family in your Prayers.

Rosemary Croft.
